

Acoustical Laboratory Pte Ltd

(Ministry of Manpower Accredited Training Provider)

offers the following course:

CERTIFICATE IN FACTORY NOISE MONITORING

OBJECTIVE

Training for competent persons in noise assessment to conduct noise and exposure assessment in factories with more than 10 workers exposed to excessive noise, as required under the Factories (Noise) Regulations, 1996.

WHO SHOULD ATTEND?

Safety & health professionals, factory managers/supervisors, environmental control officers, technical personnel and anyone involved in noise assessment and control.

WHAT YOU WILL ACHIEVE BY ATTENDING?

- ① Qualify yourself as a Ministry of Manpower (MOM) approved Noise Monitoring officer.
- ② Intensify knowledge on noise monitoring and control.
- ③ Familiarise yourself with the use of sound measuring equipment.
- ④ Amplify your ability to handle noise problems at your work place.
- ⑤ Familiarise yourself with relevant noise legislation in Singapore.

CERTIFICATE OF COMPETENCE

A Certificate of Competence (Approved by Ministry of Manpower) will be issued to each participant whose attendance is 100 percent and who has successfully passed a written test.

The names and particulars of successful candidates will be submitted to the Ministry of Manpower so that they could act as competent persons for noise monitoring under the Factories (Noise) Regulations, 1996.

COURSE CONTENT

- ⊕ Basic Acoustics
- ⊕ Effects of Noise on Hearing
- ⊕ Legal Requirements under the Factories Act
- ⊕ Sound Measuring Instruments
- ⊕ Strategy and Methodology for Noise Surveys
- ⊕ Appreciation of Noise Control Techniques
- ⊕ Assessment & Course Evaluation
